

Corporate Functions Tech Rider

Forward this to your facilities, AV, or venue team. The setup is compact, practical, and self-sufficient — built to fit around the event rather than dominate it.

Power

MAINS

01

One standard 220V/13A outlet within roughly 3m of the performance position. No other power needed.

Footprint & Seating

STAGE

02

About 2m x 1.5m on a flat, level surface. One sturdy armless chair at standard height — no bar stool, no riser.

Amplification

AUDIO

03

Up to ~100 guests: I bring my own 100W JBL powered speaker. Larger rooms or crowds: please provide a PA suited to the venue, fed from my balanced DI/XLR output.

Microphone & Phantom

AUDIO

04

Clip-on lavalier instrument mic into the desk via XLR or 6.35mm jack; the desk must supply 48V phantom power. I carry a dynamic XLR backup — please tell me in advance if phantom isn't available.

Connection

AUDIO

05

Bluetooth is my preferred link for backing tracks. If it isn't available, please have a suitable USB or 3.5mm aux cable on hand.

Monitoring & Playback

AUDIO

06

I need to hear myself clearly — angle my speaker or a small foldback toward me. Backing tracks play from my own phone or laptop.

Sound Check

SCHEDULE

07

30-45 minutes before doors, or the earliest quiet window your run sheet allows.

Load-in / out

LOGISTICS

08

Self-managed, about 20 minutes each way, with a discreet route preferred. Parking near the entrance is appreciated.

Outdoor & Weather

ENVIRONMENT

09

The cello is solid wood: please provide shade and cover from direct sun, heat, and rain, a dry stable spot, and a wet-weather backup plan.

Insurance

ADMIN

10

Public liability cover is in place. Certificate available on request for venue compliance.

Attire

DRESS

11

Black tie, business formal, or an agreed dress code to match your event standard.

Integration

SHOW FLOW

12

Slots cleanly into MC, DJ, AV, and speech cues. Can play to a click or hold for live timings.

ADVANCE NOTES

Need the rider checked against your floor plan or run sheet? Send the date, venue, and schedule and I'll reply with availability and setup notes.
