

CORPORATE EVENTS

Corporate Functions Tech Rider

Compact technical requirements for Luke Stamer corporate event performances.

VENUE / AV REFERENCE

Forward this to facilities, AV, or the venue. The setup is compact, practical, and designed to fit around the event rather than dominate it.

Power

1x standard 220V/13A outlet within roughly 3m of the performance position.

Footprint

Approximately 2m x 1.5m, armless chair supplied by venue, no riser required.

Amplification

Acoustic for up to 80 guests; own pickup and DI/XLR balanced feed to FOH for larger rooms.

Sound check

30-45 minutes before doors, or at the earliest quiet window your run sheet allows.

Load-in/out

Self-managed, approximately 20 minutes each, with a discreet route preferred.

Insurance

Public liability cover in place. Certificate available on request for venue compliance.

Attire

Black tie, business formal, or an agreed dress code to match your event standard.

Integration

Can slot into MC, DJ, AV, and speech cues; can play to a click or hold for live timings.

SUPPORT NOTE

Need the rider confirmed against your floor plan or run sheet? Send the date, venue, and schedule and I will reply with availability and setup notes.
